

Case Study

Green Plan Expertise for Devon ICS

Client: Devon ICS
Project status: Completed
Timescales: 3 month commission
Services provided: Specialist expertise to produce the inaugural ICS Green Plan

gbpartnerships worked with colleagues across the system, representing the 9 different areas of focus for the Plan (Medicines, Digital Transformation, Workforce and System Leadership, Procurement and Supply Chain, Travel and Transport, Adaptation, Sustainable Models of Care, Estates and Facilities and Food and Nutrition) and ensured a balanced approach for all system partners within the Plan.

The Plan was written by gbpartnerships and then developed with colleagues across the system to ensure it reflected the ICS ambitions and to enable ownership.

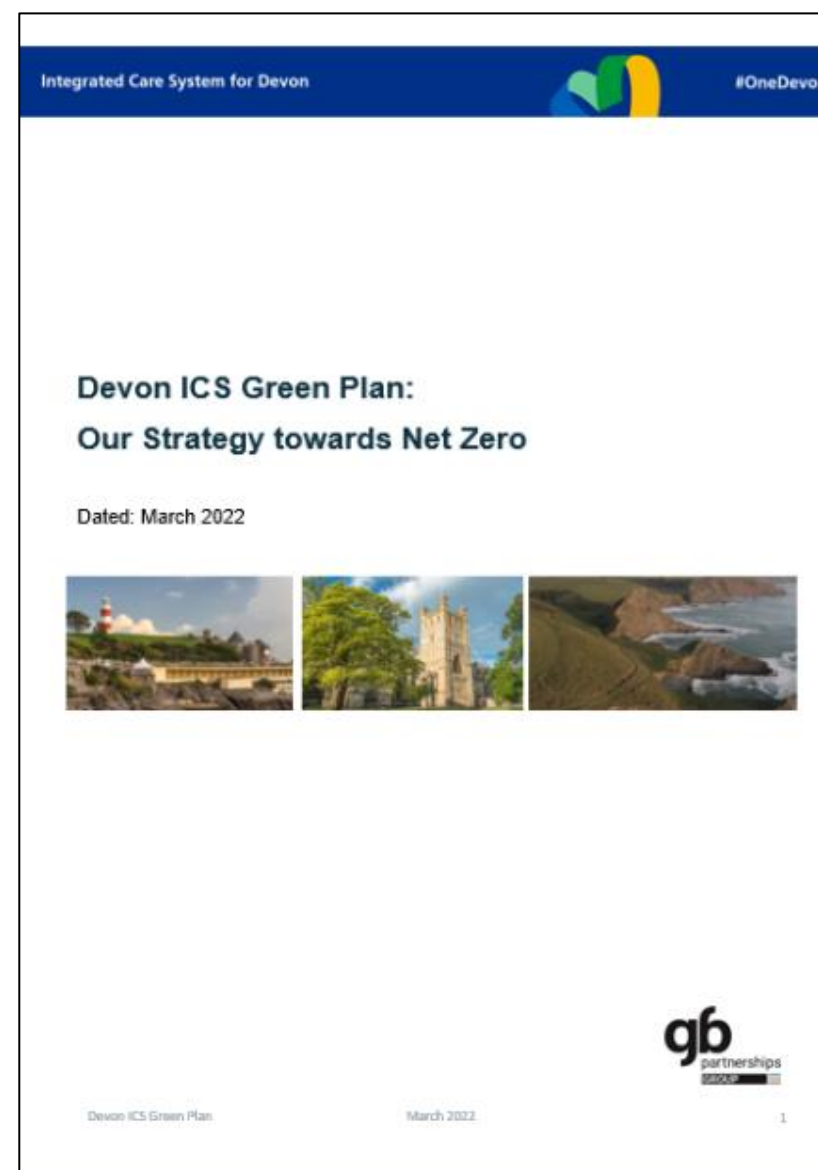

Our Role:

- gbpartnerships researched, wrote and delivered the inaugural Green Plan for Devon ICS, ensuring full consultation across the system.
- System ownership was required, so intense engagement was undertaken by gbpartnerships to ensure the Plan was as reflective and relevant of the current position as possible.
- The Plan was written by gbpartnerships and then developed with colleagues across the system to ensure it reflected the ICS ambitions and to enable ownership.

Impact:

- gbpartnerships developed a very strong and clear inaugural Green Plan that is representative of the system, at all elements. It has brought people together to share ideas and to discuss working together in next steps.

“Becky has been a joy to work with. She is quick to respond, reliable and knowledgeable. She has helped Devon ICS to formulate its Green Plan and has done so with great flexibility and good humour. It would not have been done without her. I would not hesitate to work with Becky again in the future.”

Darin Halifax, ICS Lead for the Voluntary, Community and Social Enterprise, ICS Devon

The Power of Partnership

We work in partnership with NHS and public sector organisations to unlock complex estate challenges, planning, developing, and maintaining the highest quality, sustainable health and public buildings that serve the needs of communities, now and in the future.
